AVON GOAT PELLET.

Avon goat pellet has 16-18% protein and is made from non GM maize co-products. This is very economical and versatile supplementary feed for goats. The product is manufactured at our onsite pellet mill based in Onehunga. As our core business is Starch and Glucose, we have a very consistent range of co-products, the formulation does not differ from batch or season. We also add a Nutritech pre-mix with additional vitamins and trace minerals, specifically designed for goat nutrition.

TYPICAL ANALYSIS.

All NZ Starch Stock Feed Products
are non GM and PKE Free.

✓	DM	89%
✓	ENERGY	12MJ/Kg
✓	FAT	5%
✓	FIBRE	9%
✓	PROTEIN	16-18%
